Michael R. Callahan, JD
Partner, Katten Muchin Rosenman LLP

Michael R. Callahan has been very active in providing PSOs and healthcare organizations excellent legal guidance in complying with the Patient Safety and Quality Improvement Act of 2005: establishing a patient safety evaluation system, defining and protecting patient safety work product under the Act’s confidentiality and privilege provisions, sorting out state and federal requirements, case law review, and more. Michael has been involved in most of the appellate court decisions around the country, which have interpreted the scope of the privilege protections afforded under the Act, either in representing one of the parties or in preparing an amicus brief in support of the affected party. Michael is very generous with his time and expertise in this area, sharing his presentations and slides readily with PSOs and their members, and is in demand as a presenter to national healthcare quality, risk, and legal associations.

Michael assists hospital, health system and medical staff clients on a variety of health care legal issues related to accountable care organizations (ACOs), patient safety organizations (PSOs), health care antitrust issues, Health Insurance Portability and Accountability Act (HIPAA) and regulatory compliance, accreditation matters, general corporate transactions, medical staff credentialing and hospital/medical staff relations.

Michael has achieved distinction among his peers and by ratings and referral organizations for his leadership and professionalism among healthcare lawyers. We are very pleased to welcome Michael R. Callahan, JD, to the ECRI Institute PSO 2019 annual meeting, “PSOs and Evolving the Patient Safety Infrastructure.”
